

# Creating confident WOMEN

“The story that Jules has to tell is an absolute must for women and girls, young and old. Her inspiring talk will leave you wishing you had heard the messages earlier but it also makes you realise that it is never too late to become ‘Wonder Woman’!”

Judy Illing, director, Jakida Ltd.

There comes a time in life when 'enough is enough'. For Jules Wyman, that time followed over 20 years of low self-esteem, weight issues, a job that literally allowed her to blend into the background and an almost total rejection of her own femininity.

Deep down, though, Jules knew she could be achieving much more. It was time to mentally don a sparkly cape and knee-high boots and discover Wonder Wyman.

Through talks packed with humour, honesty and emotion, Jules shows her audiences how they too can harness their inner powers and zap the baddies of fear and self-doubt. Jules's mission is that by sharing the adventures of Wonder Wyman, she will help all women to find the Superhero within and become equally fearless and feisty with a passion for themselves, life and success.

Inspiration • Motivation • Confidence • Personal story • Personal development

“There are not many people who are truly inspirational; there are many who have an interesting story, many who have overcome huge hardship, but not many who speak from (and to) the heart. Jules is truly inspirational, hearing her speak is like putting on a pair of spectacles; suddenly everything is clearer and the world looks like a different place. Many thanks Jules!”
