Dear Jules

POSITIVE BELIEF

I thought I would write to you and thank you enormously for your help in relation to my recent presentation. As a corporate lawyer, I frequently have to present to clients and occasionally in more formal court settings, as well as to people I work with. Presenting is something, therefore, that I was used to prior to your coaching.

The reason for your coaching was to enhance my presentation skills and effectively add the 'bells and whistles' so that the presentation was not just good, it was fantastic. With the techniques you taught me I was able to give a much more engaging and memorable presentation to the board of one of our major clients, consisting of 18 directors.

I received a very complimentary letter from the Chief Executive commenting on the engaging and memorable tone of the presentation. As you say, each presentation is work in progress and now I am *actively* presenting, thinking about how and what I deliver. I can't wait to do the next one using the techniques you have taught me.

Thank you very much for your help. I will certainly consider using you again in due course as your assistance was invaluable in delivering this very important presentation to one of our biggest clients.

Best wishes

Yours sincerely
